

## **DONKEY & MULE SOCIETY OF N.Z (Inc)**

### **RULES FOR THE ENGLISH/IRISH REGISTER**

#### **Section A.**

##### **100% ENGLISH/IRISH DONKEY.**

- \* A donkey originally imported from the United Kingdom or Ireland and registered in the country of origin
- Or
- \* Progeny or descendants of 100% imported registered English/Irish donkeys.
- Or
- Progeny or descendants of two English Irish donkeys who are both registered 100% English/Irish with the EIDSA or D&MSNZ.
- or
- \* Progeny of a registered 87.5% English/Irish Donkey and a registered 100% English/Irish Donkey (EIDSA or D&MSNZ)

As the English/Irish Register is a Height as well as a Breed Register, donkeys in Section A must be 11 hh and under at age 4 years, as well as having the required percentage of pure English/Irish blood. Owners of donkeys in this section must be prepared to have their donkeys measured by an approved Donkey & Mule Society Donkey Measurer if required.

Donkeys in Section A must also have permanent identification of fire brand, freeze brand or microchip.

Note no donkeys in either Section can have any known Mammoth blood.
